AUSTRALIAN NATIONAL CENTRE FOR THE INTERNATIONAL SERIALS DATA SYSTEM

The Secretary
African Studies Ass. of Australia
and the Pacific
C/- Dept. of History
La Trobe University
BUNDOORA VIC. 3083

In response to your request we have assigned the following International Standard Serial Number(s) (ISSN) to your publication(s).

Newsletter - African Studies Association of Australia
and the Pacific

= ISSN 0810-4581

ISSN can be used more effectively if printed on or in each issue of a serial. It is recommended that the ISSN be printed in a prominent position, preferably in the top right hand corner of the front cover or, in the case of a bound monographic series or handbook, on the title page. The ISSN should be printed as two groups of four digits, separated by a hyphen and preceded by the letters ISSN. Further details on the use and printing of ISSN are given in the manual *International Standard Serial Numbering in Australia*.

The ISSN remains the same for all issues of a given serial title. Please note, however, that A CHANGE OF TITLE REQUIRES THE ASSIGNMENT OF A NEW ISSN. We would be grateful if you notified us immediately of any changes in title, or cessation, of your publications so that records in the national and international files can be updated. As explained in the above-mentioned manual, you may apply for ISSN for serial publications other than those listed above and may reserve pre-publication ISSN for forthcoming titles in advance.

If you have any queries whatsoever in connection with ISSN, please do not hesitate to contact the undersigned.

Thank you for your co-operation.

Yours sincerely,

Antonio d'Amico

for Principal Librarian (Cataloguing)
